COVID - SECURE AIR

Increasing your workplace safety

## UVGI-800

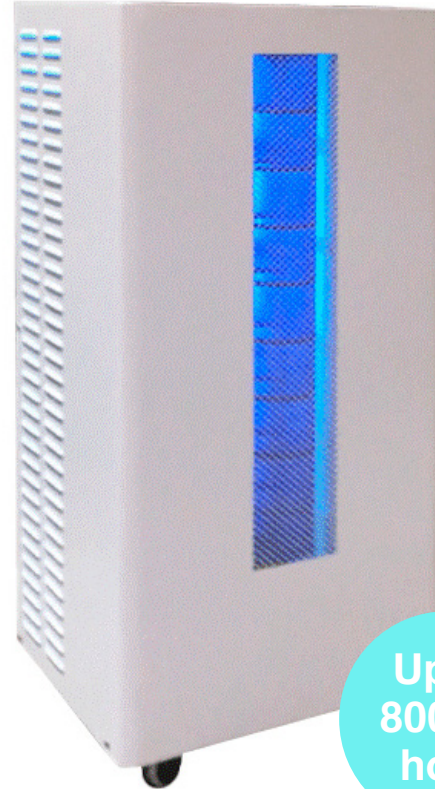

### Portable Active Air Disinfection Unit

The UVGI-800 disinfects the air by inactivating the microbes within it, using UV-C technology, at a flow rate of 800m<sup>3</sup>/hour.

Mounted on castor wheels for **easy movement**, the UVGI-800 is a compact, **cost-effective**, and efficacious solution for the disinfection of air within enclosed spaces. UV-C disinfection technology **inactivates microbes in the air** and is safe to use while the room is **occupied**, as the UV light is safely contained within the unit.

### Key benefits

- ✓ Effective UV-C disinfection
- ✓ Simple to use
- ✓ Compact – fits through all doorways
- ✓ High capacity
- ✓ Quiet operation
- ✓ Low power consumption
- ✓ Portable – mounted on castor wheels for easy moving
- ✓ Cost effective

Up to 800m<sup>3</sup>/hour

Due to its compact size, quiet operation and high capacity, the UVGI-800 is ideal for use in the following areas:

Offices

Shared workspaces

Healthcare

Dental practices

### Technical characteristics

Dimensions (mm)	830 x 425 x 300
Weight	25kg
Maximum noise level	52dB(A)

### Certifications

- ✓ CE
- ✓ EN ISO 12100:2010
- ✓ EN 60204-1:2010
