IMEX 200

The IMEX200 is an **effective UV-C air disinfection unit** that is ideal for small commercial applications, such as dentists or hairdressers.

This air disinfection device **kills viruses and bacteria** on the first pass, along with **improving air quality** by removing pollutants and health hazards. The IMEX does not just kill SARS-CoV-2, the Coronavirus that causes Covid-19, it is also effective against pollen, VOCs, mould spores, dust etc.

Key benefits

- ✓ Single Air Pass Technology (SAPT) ensures viruses and bacteria are killed instantly on the first pass
- ✓ Air disinfection 5 times per hour
- ✓ No harmful ozone is produced by the air disinfection process
- ✓ Easy installation and low running costs
- ✓ Low noise levels
- ✓ Air flow rate of 180m³ per hour

180m³/hour

IMEX 200 is ideal for use in the following areas:

Doctors' surgeries

Dentists
