Increasing your workplace safety

IMEX 70

The IMEX70 is a **ceiling mounted**, lightweight, unobtrusive air disinfection technology that is ideal for any retail or healthcare environment. This air disinfection device **kills viruses and bacteria** on the first pass, along with improving air quality by removing pollutants and health hazards. The IMEX does not just kill SARS-CoV-2, the Coronavirus that causes Covid-19, it is also effective against pollen, VOCs, mould spores, dust etc.

Key benefits

- ✓ Single Air Pass Technology (SAPT) ensures viruses and bacteria are killed instantly on the first pass
- ✓ Air disinfection 5 times per hour
- ✓ No harmful ozone is produced by the air disinfection process
- ✓ Easy installation and low running costs
- ✓ Low noise levels
- ✓ Air flow rate of 100m³ per hour

100m³/
hour

IMEX 70 is ideal for use in the following areas:

At home

Shops

Pharmacies

Restaurants
